

# INVOLVEMENT Network

## MANAGING FORMS

The Forms feature of your organization page can be beneficial for hosting applications, surveys, sign-ups, etc. Within this guide, you will find the following information to help you utilize the Forms feature:

- [Accessing Forms](#)
- [Creating Forms](#)
- [Editing Forms](#)
- [Publishing and Sharing Forms](#)
- [Accessing Form Submissions](#)

## ACCESSING FORMS

**Note:** Only users with full Forms access in the organization will be able to create a form. To edit member access to forms, please review the [Managing Rosters](#) guide.

1. Log in to the [Involvement Network](http://involve.uga.edu) at <http://involve.uga.edu>.
2. Select “Manage” from the menu next to your user icon (top, right corner).

3. Select the Organization you would like to manage from “My Memberships”.

4. Select the menu on the left-hand side of the page.

5. Select "Forms" from the menu.

[Return to Top](#)

# CREATING FORMS

1. After following the steps to access your organization’s forms, you will be directed to a menu where will automatically see any active forms your organization is hosting. You have the ability to view archived forms as well. To create a new form, select the blue “Create Form” button.

Forms

Showing 1 - 10 out of 16

Exec Applications for the 2020 School Year

Start Date: Mon, Oct 28, 2019 7:00 PM EDT, End Date: Mon, Nov 11, 2019 11:45 PM EST

Total Submissions: 24 Pending: 24 Approved: 0 Denied: 0 Received: 0

2. When creating a form, you will first be prompted to identify your form properties. Enter a name for your form and then fill out the additional settings.

*See below for an explanation of each setting.*

Setting	Function
Active	Determine if the form should be accessible yet. If the active option is not chosen, then users will not be able to complete the form. Leaving "Active" unchecked allows you to work on a form before making it live to your users.
Start/end time	The time period for which the form should be open. Submissions will only be accepted during this time period.
Allow Anonymous Submissions for Public Users	Enabling this option means anyone, including those who do not have an account in your community, is able to fill out the form. If you enable this setting, “allow multiple submissions” will be disabled because there is no method to limit respondents to one submission.
Allow Multiple Submissions	Users can submit more than one submission. If this option is not selected, users will be restricted from the form after one submission.
Submission Restrictions	Determine if you want to restrict the form to certain users. If you’re creating this form at the administrative level, you have the option to restrict the form to primary contacts in specific organization types. If you create this form in an organization, you can restrict the form to users within your organization that hold a specific position. If you want to make your form available to any user in your community, do not select any submission restrictions.

3. After you determine the settings for your form, you’ll be taken to the form builder and you will land on the first page of your form. At any time, you can go back into the settings by clicking “Form Properties” in the top right of the page. In addition, you can move to additional pages of the form by clicking “Page

List” in the top left. To name the page, click “Page Properties” in the top right. The name of each page will be visible to users filling out the form.

- When you are ready to start adding questions into the form, review list of question types that are available to you. Each of these question types serve a unique purpose. See below for a complete explanation of each. **Note:** Any time you add a question to your form or change a setting, these changes will save in real time.

Add New...

### Question Type

Check Box List

Radio Button List

Text Field

Drop Down List

Instructions

### Function

Multiple choice question that allows users to choose more than one option.

Multiple choice question that only allows users to select one option.

Open text response. Alter the number of rows to provide the user a larger space to write in for longer answers. You can also use the Text Field question to utilize validation, ensuring a specific format is entered.

Multiple choice question where users can only choose one option. The only difference between the dropdown and radio button options is that the user has to click the dropdown to view the available choices.

This is your method of providing additional instructions or information to the user. Instructions do not require any action on the part of the user.

Single Check Box

Think of this as a method to provide the user a set of terms and conditions that they need to agree to before they can proceed on the form. You can input the terms that need to be agreed upon and the user will be provided a single check box to confirm their agreement.

Ranking

Provide the user multiple answer choices for them to rank. You can also determine the maximum number of items they need to rank.

File Upload

Allow the user to upload a file from their computer. Files must be under 4 MB and the uploader accepts most file types. If you prefer a specific file type, make sure to indicate this within the instructions of the question.

5. For each of the question types, you also have additional question options. Once you have created a question, click on the blue Edit icon within the question to view its additional options.

*Potential options and their descriptions are below.*

### Question Setting

### Function

Required

Select the "Required" box if you want the question to be mandatory for users before proceeding. This option is available for all question types.

Shuffle Answers

For Check Box List and Radio Button List question types, you can choose to shuffle your answers. For example, if you input an alphabetical list but want the answer choices to appear random, you can shuffle them. Note: This will not shuffle the answers every time a different user fills out the form.

Minimum and maximum answers

If you are utilizing the Check Box List, you can identify the minimum or maximum number of answers a user can select.

*You also have the ability to put additional properties on your answer choices for Check Box List, Radio Buttons, and Ranking question types.*

## Question Setting

## Function

Include Text Area

Text Area allows you to provide additional space for users to write-in an answer. For example, you may want to include an "Other" option to a multiple choice question, but want users to write-in their additional option.

Include Tooltip

The tooltip allows you to hover over the answer choice to read additional information about it. The additional information will appear automatically next to the answer choice.

Include Additional Text

Similar to the tooltip, Additional Text allows you to put in additional information about an answer choice. The difference between the two is in how the information appears. With Additional Text, an information icon appears next to the answer choice. Clicking that icon will open up a box with the additional information.

6. OPTIONAL: Adding form logic, if desired, is easy. The form builder utilizes page logic, meaning you can present the submitter questions based on their answers to earlier questions in the form. For more information about form logic, [click here](#).
7. OPTIONAL: When you are done building your form, you can identify who needs to be able to have access to give feedback on form submissions. Select the name of the form, and then click "Form Properties". Navigate to the "Reviewers" tab. You will be provided a list of every member of the organization. With organization forms, you can select any member of the organization to be a reviewer on the form, without giving them the ability to approve or deny the submission. Add reviewers to the form by clicking the plus sign next to a user. You will see their name populate in the "Assigned Reviewers" list on the right side of the screen. These reviewers will receive notifications about new submissions and will have access to view and comment on form submissions. **Only users with full Forms access in the organization will be able to make final decisions about submissions. To edit member access to forms, please review the [Managing Rosters](#) guide.**

[Return to Top](#)

# EDITING FORMS

**Note:** Any changes made to the form after submissions have been received will result in a loss of data.

**Tip:** The “Copy” function is a helpful tool when managing a regular organization process without losing the previous data.

1. After following the steps to access your organization’s forms, you will be directed to a menu where will automatically see any active forms your organization is hosting.
2. If you need to edit the properties of the form, click on Form.

3. If you need to edit the questions on the form, select the three dots, and Edit Form Questions.

[Return to Top](#)

# PUBLISHING AND SHARING FORMS

1. In “Properties”, you have the ability to change the form status between enabled and disabled. If you’re wanting to share the form, make sure the form status is set to enabled.

3. When you are ready, make your decision using either the "Approval" or "Your Review" box on the right hand side, based on your role and relationship to the submission. Remember that final approval is not based on reviewer feedback and that final approvers can make this decision at any time. If you are a final approver, you can leave a custom comment when making your decision that will be sent to the submitter.

## Approval

You can Approve, Deny, or Edit the submission.

 [EDIT SUBMISSION](#)

Closing Comment (optional)

---

APPROVE  DENY

A voting reviewer will simply give a thumbs up or thumbs down to indicate whether they think the form should be approved.

### Your Review

**Amanda Mintz**  
Your Vote: Approve

- Optional: At any point, you can export form submissions in mass. You can also approve all submissions to a single form at once. To do this, navigate to the Forms tool, in the organization's Action Center. To export all submissions in mass, simply go to the submission list (shown in an organization's Action Center below).

### Manage Forms

[+ CREATE FORM](#)

ACTIVE    ARCHIVED

ARCHIVE

Name	Start Date	End Date	Copy	Publish	Submissions
<input type="checkbox"/> <a href="#">CPB Committee Application</a>	4/20/2017 5:00 PM	8/20/2017 5:00 PM	<a href="#">Copy</a>	<a href="#">Publish</a>	<a href="#">Submissions</a>
<input type="checkbox"/> <a href="#">Event Chair Report</a>	4/20/2017 5:00 PM	5/20/2017 5:00 PM	<a href="#">Copy</a>	<a href="#">Publish</a>
